

JAMES B. HUNT JR.  
GOVERNOR

WAYNE McDEVITT  
SECRETARY

WILLIAM L. MEYER  
DIRECTOR

NORTH CAROLINA DEPARTMENT OF  
ENVIRONMENT AND NATURAL RESOURCES

DIVISION OF WASTE MANAGEMENT

August 25, 1999

Mr. D.H. Griffin  
D.H. Griffin Wrecking Company, Inc.  
Post Office Box 4657  
Greensboro, North Carolina 27407

Ref: Wiley Davis Landfill, Inc. LCID (Permit No. 41-N) Expiration

SCANNED  
6/20/14

Mr. Griffin:

I am writing this letter as a courtesy to remind you that your permit for the above referenced LCID expires on 13 September 1999. Normally the permittee is responsible for initiating any action related to permit applications prior to expiration dates. Coincidentally, this date occurs just two days prior to the agreed upon closure date for the adjacent Wiley Davis Landfill - Permit No. 41-B. Since North Carolina Solid Waste Management Rules (Section .0563(4)) stipulate that LCID permits are issued for maximum of five (5) years, a new application must be submitted and approved for the site before any waste can be accepted after the expiration date. The application must satisfy all the requirements of the LCID Rules.

Due to other ongoing projects throughout the state, you must take into account the time needed by the Section to complete a review of your application. From the date of this letter only 12 working days remain before your permit expires and Section employees will have limited availability from September 8 through the 10th due to an annual meeting. If you have any questions or comments concerning this letter, please feel free to call me at (336) 771-4608 ext. 204. For any questions regarding compliance, please contact Julian Foscue at ext. 209 or Hugh Jernigan at ext. 206.

Sincerely,

  
Timothy A. Jewett  
Western Area Engineer  
Solid Waste Section

RE: Termination of Waste Receipt  
Wiley Davis Demolition Landfill (Permit #41-B)  
Greensboro, North Carolina

Dear Tim:

On behalf of Wiley Davis Landfill, Inc., I am notifying you that the owner/operator plans for Tuesday, August 24, 1999 to be the last day that commercial and D.H. Griffin Wrecking Co. wastes (wastes generated off site) will be received at the 41-B disposal site. Some additional transfer of wastes from the adjacent LCID landfill (Permit #41-N) may continue to provide the required horizontal separation and improve final slopes on top of the mound. Work is proceeding with due haste to achieve the deadline for closure of September 15, 1999.

We welcome you and other representatives of DENR to visit the site in the interim to assess the progress, and we will be happy to meet with you on site. If there are any questions regarding this letter, please contact the undersigned at (336) 271-3093.

Sincerely,

Mark A. Taylor, PE  
Project Manager
